 50¢ adults

SCHOOL TAX INCREASES

On Tuesday, 9 June 1970, the Blackburn Community Association met at Glen Ogilvie Public School to discuss the large increase in our School Taxes this year.

Guests of the Association that night were Mr. Arthur, Chairman - Carleton Board of Education, Mrs. Louise MacIntosh, representing our area and Mr. McQuarrie, the Deputy-Reeve of Gloucester Township. Mr. Nutter our other elected representative was absent due to a business trip in Western Canada.

This meeting was attended by only 36 residents of the area which was rather disappointing in view of the importance of the meeting and the request by the membership to have this meeting at our May General Meeting.

In order to report to you what went on so you may judge for yourself the reasons why, etc., our secretary recorded the questions and answers. We have taken the pertinent ones and included them in this Banner. If you are interested in reading the complete text, it is available from the secretary and runs in the neighbourhood of 25 pages.

I wish to express my thanks to Mr. Gordon Carpenter, who again gave his presentation of the School Tax at the June 9th meeting.

Roderick Dow

President

BEARBROOKE ROAD TRAFFIC

A letter has been sent to the Regional Road Commissioner complaining of heavy truck traffic and lack of crosswalks on Bearbrooke (as was promised) since the closing of Bearbrooke Road East. A copy has been sent to Reeve Armstrong and Deputy Reeve McQuarrie.

If a task is once begun,

Never leave it till it's done;

Be the labor great or small

Do it well or not at all

CHANGES IN SWIMMING TIMES

We have egg on our face!

Due to heavy demands for rental times at Gloucester Pool, time available for swimming has had to be curtailed. The buses for transporting people to Gloucester Pool on Tuesdays and Fridays have been cancelled due to lack of free time at the pool, and the bus on Thursday has been changed to 4:00 to 6:15. The bus schedule is therefore now:

Monday Lv. Glen Ogilvie at 2:15. Return at 4:15.

Wednesday Lv. Glen Ogilvie at 4:00. Return at 6:15.

Thursday Lv. Glen Ogilvie at 4:00. Return at 6:15.

A bus will return to Glen Ogilvie School at 5:00 on Thursdays with the children from the day camp.

Monday and Thursday, the pool is reserved for Blackburn Area during the hours indicated above; Wednesday is public swimming for which entrance to the pool is not guaranteed.

Fares for buses and swimming fee remain at 30¢ and 25¢ respectively, except for children attending day camp, for whom these are included in their fee.

SPECIAL REMINDER

Don't Forget That The GARBAGE is being collected TWICE a week during the Summer Months and is in effect NOW. The Pick-up for the Hamlet are on WEDNESDAY AND as usual on SATURDAY

Don't forget that we will be seeing you in September, and to anyone wishing to submit news and/or ads, please have them in to the chairman of the Publicity committee by 18 Sept 1970 Address is 33 Silver Aspen Cresc. or call 824-4784.

1

SPECIAL MEETING ON EDUCATION AND HIGH TAXATION
JUNE 9, 1970 GLEN OGILVIE PUBLIC SCHOOL

Thirty-six residents attended a special meeting called to discuss the high education tax rate. Mr. Dow introduced Mr. G. Carpenter who had been invited to investigate the matter and report to the Association on his findings. The President also introduced the four people who had been invited to answer resident's questions:

Mrs. Louise MacIntosh - our elected representative on the Carleton Board of Education.

Mr. C.D. Arthur - Chairman of the Carleton Board of Education

Mr. MacQuarrie - Deputy Reeve of the Township of Gloucester

Mr. Nutter, also an elected member of our area on the Board and Chairman of the Operations Committee, had been invited to attend but was unable due to business travel.

Mr. Carpenter made generally the same presentation of his findings as he did at the May 25 meeting. He explained the changes that were involved when all the 17 Boards of Carleton County were amalgamated and put forth figures of expenditures for 1969-70. In the next 5 years another \$47 Million is expected to be needed for construction. When Mr. Carpenter completed his report, the Association members were invited to ask questions. A list of questions and answers, exactly as quoted, are attached.

The meeting broke up at 10:30 pm., after which coffee was served by the Group Committee.

QUESTIONS & ANSWERS

Mrs. MacIntosh first rose to explain that Mr. Carpenter's presentation basically seems to agree with the figures that the Board has. One difficulty that has occurred and has been played up in the press is the difference between the Carleton Board of Education (CBE) mill rate and the mill rate calculated by the Township. The CBE mill rate was used in the presentation. Assessment figures used by CBE in distribution and calculation of total levy for some properties which are not taxable. This accounts for the difference. CBE should only take in the amount of money requisitioned from the Township by the CBE. When we talk mill rates, then talk Carleton levy against rate payers. This is causing confusion and why the Board and the Council cannot come to an agreement on mill rate. It is wiser to talk about amounts of money.

Q. This 83.18 mills. Is this the set figure for schools this year? Is it set by the Board or the Township?

A. Last night at the meeting the rates bylaw for this year they printed some mistakes that the computer made. The rates at the meeting last night for residential purposes:

| | | |
|----------------------------|-------|------------------|
| 1970 Council General rate: | 17.19 | (up 3.81 mills) |
| Regional Rate: | 13.58 | (down 5.0 mills) |
| High School Rate | 46.12 | |
| (outside South Carleton) | | |
| Public Elementary | | |
| School Rate | 51.06 | |

This calculated on basis of 100,000 under required requisition of Carleton Board of Education. These amounts were levied against the residential-commercial assessment of \$15,147,000 which pays a higher rate.

Q. What is Mrs. MacIntosh's role on the School Board? Monitor expenses? Look at budgets, revenue, etc.? In any good accounting system, you have budget and anticipated revenue. Do you monitor these? What is your role? How can this

happen without good monitoring? 30% of a budget is variable so it can be controlled to a certain degree. If started in sufficient time, could you have taken action in time to stop it?

A.(Mrs. MacIntosh) Yes. It is the role of trustees to be aware of expenditures being made and keep within the budget. Up until early April we were still not aware of the budget. Firstly, the initial budget was drawn up after the amalgamation of 17 Boards and it was very difficult to agree to the exact cost of some of the risks. Secondly, when drawn up, we had no central administration staff at all. None of the statements of the amalgamated Boards have been honoured as yet. It is very difficult to estimate expenditures for the year. One of the errors made was also difficult to catch in the early part of the Board - if you will recall we did not take over the Secondary Schools until the end of June. An error made was in over-estimating the number of students for whom we are responsible. These figures were available only through Ottawa Collegiate Institute Board. Original estimates made of the number of students were required by the Ottawa Board in September or October and was prior to the amalgamation of the first figures that were made. We know the number of students attending schools in Carleton, but in Carleton a great number of students were attending schools in other jurisdictions and these students had a right to continue to go to these schools. We over-estimated the number of students we had, and this is the basis on which the grants are made from the Provincial Government. The grants were not all received by us during the year. We had some \$2 Million outstanding from 1969 grants. Secondly, the Department of Education changed the system of accounting and the system of calculating grants - expenditures of the previous year which would be an audited statement. Last year it changed, and grants are now calculated on estimates of current year expenditures. So it becomes fairly difficult when you have a Board which has just been amalgamated and which didn't have all the students under its' jurisdiction; so there is the difficulty of estimating actual costs and expenditures. In over-estimating the number of students and going ahead and spending budget which we had drawn up, when it came to collecting a grant in the Fall when we did know the number of students and which turned out to be greater than anticipated. The Department, therefore, was penalized for this. So it worked both ways. We had spent more than we anticipated. We did not know everything about the change in grants until February this year. We agree it is strange. We have pleaded to know what the grants are, but we do not know what the grants are during the year. We don't know the exact amounts. This year this is what happened - a change in grant regulations came down one week after we brought down our budget.

Q. Do you not get a percentage of grants that you are spending? Does it come in a lump sum?

A.(Mrs. MacIntosh) It doesn't come in a lump sum. Dates on which we received grants:

| | |
|--------------------------------------|-----------|
| 1969 started receiving them in March | 50,000 |
| June | 1,500,000 |
| December | 309,000 |
| March | 2,000,000 |

The final grants were not announced until February.

Q. What do they project these grants on?

A.(Mrs. MacIntosh) Availability of money.

Q. But they also must have some type of formality to release money to you?

A.(Mrs. MacIntosh) If they have, we don't know about it. I don't know that it necessarily follows.

Q. Do you receive statements of the Board monthly?

A.(Mrs. MacIntosh) No. We receive statements over 3 months. So far as we were aware our books were balanced.

Q. Do you have a Finance Committee?

A. (Mrs. MacIntosh) Yes.

Do they monitor what the expenditures are?

A.(Mrs. MacIntosh) It is not called a Finance Committee but that is what it does. Operations Committee is the name. The Chairman of that Committee was aware certainly of the statements, yes. But I am trying to tell you that up until February we were not aware there was this deficit. Because we did not know our income.

Q. You collected a figure of \$500,000?

A.(Mrs. MacIntosh) We were anticipating another \$2 Million. We didn't receive a bill from the Ottawa Board of Education. Neither of the students who were in their system for the first six months nor the students - all of them French-speaking - in Cumberland and in the City of Ottawa - and we had to pay their fees. We didn't know the exact cost per pupil until Ottawa sent us a bill. The bill was some \$308,000 more than anticipated. We had based last year on pupil/per year plus what we thought a reasonable increase. We were wrong but we received service so we had to pay the bills.

Q. This is strange. You over-estimated the number of pupils in your original instance?

A.(Mrs. MacIntosh) This is the only way we could do it last February.

Q. You had figures. Did you not have access to records, financial statements, etc.?

A.(Mrs. MacIntosh) Yes. But their statements had not been audited.

Q. Another part of the debt, that is the \$300,000 extra charge for the Ottawa Board for the education we bought from them. If I want to buy something and pay for it, I have a contract. Why did you not have control and will you get caught again?

A.(Mr. Arthur) I hope not. We are hopeful of retaining as many of these students as we can. This year for the first time there is no increase in the number of students going into the Ottawa Board for courses. As we become a more complete and sophisticated system at the secondary level we will be able to look after more of these students. At the preliminary stage is a French high school, 700 - 800 students who are French-speaking, and entitled to take courses in French which we cannot provide at the present time. In setting cost per student: when we go to the Ottawa Board we say first - number of pupils determines what system; second - what do you anticipate will be the cost of taking those pupils? Then we take that figure and put it in the budget. Between that discussion and the time it was put in the bill last year there was a substantial difference. There is no control over Collegiate Board expenditure. We are arguing the case with them. For the kind of pupils we cannot handle, i.e. French, vocational students, mainly those two categories, the cost is higher than for those presently taking education in high schools such as Gloucester.

Q. "The Citizen" paper says that Gloucester officials were successful in having the deficit payment deferred over 3 years. Are we in favour?

A.(Mr. Arthur) Well, yes. I think if the truth were known about the discussions that have gone on between Gloucester Township Council and the Carleton Board, the two trustees that have been involved in this discussion then are Mrs. MacIntosh and myself. Therefore, Yes, we are in favour.

Q. The French high school students in Orleans. Do we have any idea how many students will go to that high school? Any from Gloucester? Will they be bussed to the school? Would this not be expensive?

A.(Mrs. MacIntosh) Not more so than now. We are picking people up from all over the easterly part of the Township. Hopefully, by moving into Orleans, we will have centralized the system somewhat. We have 800 students at the moment taking education in French in the Ottawa system. It takes us two years from the time we get going until its' doors finally open. A high school takes two years to build. Then 1200 French students will be going to that school. We believe that a school of 1200 - 1500 at secondary level is a good size.

Q. Building this high school will not help Gloucester High School?

A.(Mrs. MacIntosh) To some extent it will. Courses are offered in the French language. Both English and French are offered - not all but a good number. Those pupils will be moved to the new school and will allow for the growth in this area along with the new high school.

Q. But this will not solve the problem at Gloucester?

A.(Mr. Arthur) The new school will help. I think that in the long range forecast of five years and based on what we now know of anticipated growth in this area, with the freeing of people at Gloucester there will be secondary accommodation to take care of this area. The next high school will be located in the area around Manotick. Don't ask where. But if that is the case, the pupils in that area will still further free us accommodation in Gloucester. We are working it out. If builders would stop building and people stopped moving in but as long as there is expansion we have a problem.

Q. We had a presentation a short time ago by the builder concerning the development of Blackburn Hamlet. Estimated that in five years there will be as many as 13,000 people living in this triangle. We now have two schools. What plans does the Board have for future schooling in this area?

A.(M. Arthur) We don't have any plan because we are not aware of what the Costain developers are going to do. Our projections are based on known expansions already registered and we have to approve of each development. If you read the paper a week ago, we were presented with Phase 1 of an 8-phase development of Nepean City of 28,000 people and we refused to consider it. One problem is at the present time our money for our capital, money available for building of schools, there has been a ceiling set (including expansion). There is no way we can build any other schools over the next four or five year period than those we have already provided for. To answer specifically, we are not aware in detail of these plans and it is not in total a part of our five year projection.

Q. May I suggest, Mr. Arthur, that you speak to Costain to take a look at this as Costain is pretty definite.

A.(Mr. Arthur) He will not get the go-ahead without our approval.

Q. If not, we will only get into another harangue, as in the past -the fact that the students are going on to shifts next year while waiting for Col. By to be open the following year, we have heard that you looked at several alternatives to overcome this shift but nobody has come out and said here is the reason we have gone on shift basis. We have considered portables, additions to the school. What were the alternatives that were considered before deciding to go on shift and what were costs?

A.(Mrs. MacIntosh) This was a decision that took a great deal of time and considered alternatives. You have mentioned several we looked at. One is an addition to the school. It is at the moment at capacity between 1700 - 1800. Any higher than 1800 is impossible. The children don't get the care they should. The Board would like to see the schools at 1800. I resist very strongly that we should add anymore to Gloucester High School. About portable classrooms - one has to remember in secondary schools it is not just a question of having another classroom. It is a question of programming. Several statements have been made that are misleading, made by certain trustees that there are various numbers of spaces in Carleton County - some of them are in hairdressing courses. If your son wants to take honours courses, there is a vacancy in hairdressing. You cannot deal with numbers and children cannot be moved just anywhere. They are taking certain courses which are important to have. One of the thoughts we are faced with is finding space for students in courses without one. For example, science labs. A great number of students at Gloucester High School are in, well, put in portables. The OMB has a very tight ceiling on the amount of money to be put into construction this year and it is available only for permanent school buildings. If we spend it on portables, we don't have it for high schools. In the opinion of the Board, it is not very wise to spend money on that and have to continue using them. They are very inferior and don't solve the problem of space we

and, which the new high school will do. We are short on portables. We anticipate close to 1000 students next year. At the present time there are 600. Where they will go for a while we don't know. We are in a rapid growth situation and there is no more expenditures for us than there was last year. So we are taking that money and spending it as wisely as we know how. There isn't one trustee that is unhappy with the system. I fully realize this is going to penalize some children. Some will adapt well but certain students are border line cases and I am willing to agree that this system will not help them and they won't do as well as they should. However, we had no alternative after a great deal of consideration. One consideration was to take some kids out the Queensway to Manotick and put up there. In any event, this solution would have put us in a difficult position at the time. We have another school at Nepean and Bells Corners in present stages. Now all have to go to Kanata. The tender was awarded last night and construction is to be completed in July 1971 and the contractor must follow our schedule.

Q. Is there a penalty clause?
 A. (Mrs. MacIntosh) No.

SUMMER RECREATION PROGRAM

Costain Estates have hired Mr. Jacques Thibault for the purpose of organizing and directing a recreation program in this area for the summer months. Jacques is a graduate of the University of Ottawa's School of Physical Education, and has directed or participated in this type of program for several summers. Among the activities proposed are a Day Camp at Glen Ogilvie School, and an evening sports program for teen-agers. This activity is for us; lets give it our support!

DAY CAMP

Registration - due to a number of telephone calls, another opportunity will be available for those who wish to register their children for the Day Camp at Glen Ogilvie School. This day will be Monday, June 29th from 09:00 a.m. to 11:00 a.m. If you are unable to make it, telephone registration may be made any day by calling Mrs. C. Davidson at 824-4129

Cost for the day camp will be \$5.00 per week per child; if you wish to register by the day, you may do so for \$1.00 per day.

Program - program for the first two weeks of the day camp is published on the following pages. If your children are interested in any of these activities, they may be registered on June 29th, or if this is not possible, they may be registered on the daily basis.

J. MacDonald
Chairman of recreation committee

DAY CAMP

The Blackburn Hamlet Community Association has appointed me (Jacques Thibault) Director of a Day Camp being held this summer. I would like to extend my thanks to them and hope that the program as set up will please the parents as well as the children of our Community.

The program planned should interest all children from six years old to twelve years old. We have six themes - one for each week:

1. Friendship
2. Nature
3. Adventure
4. Sports
5. Art
6. Festival

To give you some idea of what will take place we have divided the activities into four categories. Following is a program for the first two weeks of the Camp.

A. Routine Daily Activities

These are the activities which take place every day:

Games of all kinds - Quiet - Active
 Story Telling
 Songs
 Arts & Crafts
 Rehearsals for big events

B. Self-Directed Activities

These can be started at will by the children with very little guidance. Thus the children have not too much supervision, they have the opportunity of choosing their games at certain periods of the day.

| | |
|----------------------|---------------|
| Blowing soap bubbles | Rope Jumping |
| Doll Play | Checkers Etc. |
| Sand Play | |

C. Team Games

These are the games set up for some organization on the part of the children. The games which will draw to the day camp the older boys and girls.

| | |
|------------|-------------|
| Baseball | Dodgeball |
| Touchball | Netball |
| Softball | Basketball |
| Volleyball | Deck tennis |

D. Special Events

These are very special, they stand out in the life of a day camp. For the summer program we have one at least every week.

DAY CAMP (CON'D)

D SPECIAL EVENTS

These are very special activities, they stand out in the life of a Day Camp. For the summer program we have at least one every week.

1st week---Visit to the Experimental Farm (Friday afternoon)

2nd week---Indian Pow Wow

3rd week---Boys: On wheels meet

Girls: Doll dressing exhibition

4th week---Wednesday-Track and field meet (Novelties)

Friday---Pet show with prizes

5th week---Wednesday-7-9 p.m. Penny Festival

Friday---2-4p.m. Art Show

6th week---DISNEYLAND PARADE in BLACKBURN HAMLET.

Hope to see all of the boys and girls of the Hamlet out to participate in this well rounded Day Camp of Activities. J.T.

A NOTE FROM COSTAINS OFFICE

Mr. Pickard, Development Manager for Costain, said he believes this is a unique effort to stimulate community involvement and the first time this has been done in the Ottawa area.. According to Mr. Jack MacDonald, chairman of the recreation committee of the Blackburn Hamlet Community Association, the camp will be run through July , and, if interest remains high, may be continued until school re-opens.

First registration was held last Saturday and the response was enormous. A further registration will be held at 9a.m. until 11a.m., Monday, June 29th. "Particularly gratifying," said Mr. MacDonald, "was the interest expressed by the Hamlet's teenagers, some of whom will be used as supervisors."

Mr. Thibault indicated that the summer recreation program will be broad in its appeal to all age groups and, in addition to the day-camp for youngsters, will include activities for the teen-aged residents, as well. The teen events have not been formulated , he said, because he especially wants input from them. "This is a community's program", he said, "not mine and not Costain's. We are only the catalysts."

NEW CATHOLIC SCHOOL ANNOUNCED FOR BLACKBURN HAMLET.

The Carleton school Board has announced plans to construct a school in Blackburn Hamlet for English-speaking children that will be ready by September 1971.

The new school, to be known as the BLACKBURN CATHOLIC SCHOOL, will begin classes this fall in four portable classrooms that will be set up on the site of the Ecole Ste. Marie. These classrooms will accomodate children from Kindegarten to Grade 3. Children in the higher grades will continue to attend classes at the Thomas D'Arcy McGee School in Beaconwood.

An interesting feature of the school program will be an all-French Kindegarten starting this fall. Initially classes will be in English but the children will be gradually introduced, through a concentrated program of French language teaching, to all-French classes.

The site of the new school has not yet been finally decided upon. Although the Board had previously reserved a site near the corner of Bearbrooke Rd and Northpark Drive, a more central location is being considered.

Parents wishing to register their children or to obtain further information about the new school or the temporary facilities, that will be ready this fall may do so by contacting Mr. William Roach, principal of the Thomas D'Arcy McGee School, at 746-2241 or any of the following members of the parents' school committee: Mrs. E. Rapley, 824-1347; Mrs. J. Marr, 824-4240; Mrs. J. Smith-824-2061 and Mrs. D. MacDonald, 824-2460

GIRL GUIDES OF CANADA, BLACKBURN DISTRICT

The Brownies and Guides of Blacburn District have finished an exciting Jubilee year. The various Companies and Packs all held closing activities such as hikes, BarB.Q.'s, and trips: to Camp Wolsey. A special thanks goes to all the dedicated guiders for their work with our girls throughout the year.

BULLETIN: SUMMER PROJECT --All Brownies and Guides have been asked to collect plastic bottles, containers, cardboard rolls and other generally discarded items to have a good supply on hand to start the fall season. Plans are being made for a Fall Bazaar and all mothers and fathers are asked to help the girls with this project.

Guides Con'd

10

So don't discard baby food jars, sour cream cartons, plastic jugs or what-have-you without first checking with your Brownie and/or Guide. The Cookie Sale was successful and all cartons were sold. Thanks to all who gave time and effort to put this Sale over. For those homes we might have missed---next year will soon be here.
