

EDUCATION CONTINUED:

CAIRINE WILSON SECONDARY: Students from the eastern section of the Hamlet attend Cairine Wilson where there is a total of 1035 students enrolled in 124 courses. This presents an increase of approximately 200 students over last year. If the present rate of growth continues, it may be necessary for portables next year. As well as the need for class space there will be a need for more lab and technical space. A study we have been told is underway with school officials to decide on ways of providing space. Further information regarding this will be forthcoming later in the year. Mr. J. McDonald is principal of the school.

In future issues of the Banar, the Education Committee hope to have information briefs on a number of topics including curriculum, special services, overcrowding or declining enrollment and how it will affect your child, busing and other topics of general interest. If you would like to see information on a particular topic, please feel free to call.

ELECTIONS: Elections will have taken place by the time you receive this issue. In the next Banar, we will have an article introducing your new trustees on the Carleton Boards of Education.

EDUCATION COMMITTEE: I would like you to refer back to the beginning of this article and give serious consideration to the need for members to assist on the Education Committee of the Blackburn Community Association. There is a need and those who will benefit from such a committee will be YOUR child.
