

Neighbourhood Watch, Blackburn Hamlet Ottawa Police Crime Mapping Tool – Newly Updated March 2025

Search the Ottawa Police Crime Mapping tool or enter <https://data.ottawapolice.ca/>

Open the “Crime Map (Year to Date)”

The Ottawa Police Service’s Crime Map (Year-to-Date) has been redesigned to make it easier than ever to access crime statistics in your community.

Key Features:

- ✓ Filter by Crime Type: Quickly search for specific crimes in your area.
- ✓ View by Neighbourhood: Get insights tailored to your community.
- ✓ Track Year-to-Date Data: Stay up to date with the latest crime trends.

Please note, the Crime Maps display incidents that are considered preliminary and may have yet to be fully verified through internal quality control processes.

Neighbourhood Watch, Blackburn Hamlet Ottawa Police Crime Mapping Tool – Newly Updated March 2025

Once the map is opened you can select the filter to quickly zoom the map to your ward and further zoom in if you wish. I selected Ward 2 – Orleans Innes, and zoomed further into Blackburn Hamlet. I selected 8 Feb to 8 March 2025 on the date range, and all reported crimes to be shown. I then chose to click on the Robbery icon which shows a gun, and opened to see the date time specifics of that reported crime. You can hover over and click any other icon to see the details on the others as well.

This is an excellent tool for Neighbourhood Watch Coordinators and Block Captains, to see trends and reported crimes or incidents updated almost immediately when reports are in read by Ottawa Police supervisors and input into the system. There may be slight discrepancies, but this is an amazing tool for Neighbourhood Watch awareness.

Once you familiarize yourself with the software through usage it becomes much easier and is rather intuitive.

I recommend all Block Captains use this tool for your street updates monthly or however often you need to send.

Thank you.
